

Bring surfaces to life using progressive, attractive, distinctive, efficient, and cost effective solutions ~ You can take your creativity for a walk, we'll meet you there!

Description

Cubics Acoustic Panels are sound absorbing panels developed with environmental friendliness in mind. Cubics Acoustic Panels offer additional benefits compared to traditional acoustic board material. They are installed as a completely finished surface, requiring no additional time or materials for covering and are 100% free of allergens, toxins, irritants, binding agents and formaldehyde.

Core Material

60% PET-recycled fiber and 40% PET-virgin fiber, and are 100% recyclable.

Fire Performance

ASTM E84 and
CAN/ULC S102 FSR

Thickness

Varies according to profile.

Panel Sizes

Varies according to profile.

Mounting Options

Concealed Nail, Decor
Screw, two-sided tape, or
Adhesive direct to wall
